CONTENTS

Chapter 0: Getting Started.....	1
0.1 Problem Solving	1
0.2 The C++ Program.....	2
0.3 A First Look at Input/Output.....	6
0.4 A Word About Comments.....	10
0.5 Preprocessor Directives.....	13
 Chapter 1: The C++ Data Types.....	15
1.1 Constant Values.....	17
1.2 Symbolic Variables.....	19
1.3 Pointer Types	25
1.4 Constant Types	34
1.5 Reference Types.....	38
1.6 Enumeration Types.....	39
1.7 Array Types.....	41
1.8 Class Types.....	48
1.9 Typedef Names.....	64
1.10 Volatile Objects	66
 Chapter 2: Expressions and Statements.....	67
2.1 What Is an Expression?.....	67
2.2 Arithmetic Operators.....	68
2.3 Equality, Relational, and Logical Operators	69
2.4 Assignment Operators.....	71
2.5 Increment and Decrement Operators.....	73
2.6 The sizeof Operator.....	77
2.7 The Arithmetic if Operator	78
2.8 Comma Operator.....	79

2.9	The Bitwise Operators	79
2.10	Precedence	84
2.11	Type Conversion	86
2.12	Statements	91
2.13	Statement Flow Control	92
2.14	The if Statement	92
2.15	The switch Statement	99
2.16	The while Statement	104
2.17	The for Statement	105
2.18	The do Statement	107
2.19	The break Statement	108
2.20	The continue Statement	109
2.21	The goto Statement	109
Chapter 3: Functions, Scope, and the Free Store		111
3.1	Recursion	113
3.2	Inline Functions	115
3.3	Strong Type Checking	116
3.4	Returning a Value	117
3.5	The Function Argument List	120
3.6	Argument Passing	125
3.7	A Reference Argument	127
3.8	An Array Argument	131
3.9	Program Scope	133
3.10	Local Scope	139
3.11	Free Store Allocation	144
3.12	A Linked List Example	150
Chapter 4: Overloaded and Template Functions		165
4.1	Overloaded Function Names	165
4.2	Template Functions	179
4.3	Pointers to Functions	200
4.4	Type-Safe Linkage	208
Chapter 5: The C++ Class		215
5.1	The Class Definition	216
5.2	Class Objects	221
5.3	Class Member Functions	223
5.4	The Implicit this Pointer	233
5.5	Friends to a Class	239
5.6	Static Class Members	244
5.7	Class Member Pointer	250

5.8	Class Scope	257
5.9	Unions: A Space-Saving Class	269
5.10	Bit Field: A Space-Saving Member	274
Chapter 6: Class Member Functions		277
6.1	Class Initialization	277
6.2	Memberwise Initialization	295
6.3	Operator Overloading	301
6.4	A BiVector Class Example	326
6.5	User-Defined Conversions	334
Chapter 7: Class Templates		353
7.1	Template Class Definition	357
7.2	Queue and QueueItem Class Definition	360
7.3	Template Class Instantiation	366
7.4	Template Class Specialization	368
7.5	Template Class Static Members	369
7.6	Template Constant Expression Parameters	372
7.7	Template Class Nested Types	375
7.8	Template Class Friend Declarations	377
7.9	A Template Array Class	380
Chapter 8: Class Derivation and Inheritance		389
8.1	Object-Oriented Programming	391
8.2	The Zoo Animal Representation	394
8.3	Derivation Specification	398
8.4	Information Hiding Under Derivation	405
8.5	Public, Protected, and Private Base Classes	409
8.6	Standard Conversions Under Derivation	417
8.7	Class Scope Under Derivation	423
8.8	Initialization and Assignment Under Derivation	429
8.9	Initialization Order Under Derivation	433
8.10	Overloaded Functions with Class Arguments	434
8.11	Inheriting Operator Functions	440
Chapter 9: Object-Oriented Programming		445
9.1	Virtual Functions	445
9.2	Virtual Base Classes	469
9.3	Template Classes Under Inheritance	479

Chapter 10: Object-Oriented Design	
10.1 Identifying the Classes	
10.2 Defining the Interface	
10.3 Living in a Multi-Paradigm Universe	
Appendix A: The C++ I/O Library	
A.1 Output	
A.2 Input	
A.3 Additional I/O Operators	
A.4 Overloading Operator <<	
A.5 Overloading Operator >>	
A.6 File Input and Output	
A.7 Condition States	
A.8 Incore Formatting	
A.9 Format State	
A.10 A Strongly Typed Library	
Appendix B: Exception Handling	
B.1 The Try Block	
B.2 The Catch Handler and Throw Clause	
B.3 The Function Throw List	
B.4 Summary	
Appendix C: Compatibility of C++ with C	
C.1 The C++ Function Prototype	
C.2 Where C++ and C Differ	
C.3 Linkage Between C++ and C	
C.4 Moving from C to C++	
Appendix D: Compatibility with Release 2.0	
D.1 Changes to Class Inheritance	
D.2 Changes to Classes	
D.3 Changes to the Basic Language
