## PART 1: ◆ Enabling the Enterprise 1

Chapter 1:	<b><i>Strategies for Technology-Enablement through People: STEP Model</i></b>	<b>3</b>
◆	CYBERSPACE: A GLOBAL VIEW	3
	Control Systems in Human Affairs 3 / Changing Nature of the Workplace 5	
◆	BUSINESS PROFESSIONALS IN THE INFORMATION AGE	6
	Strategic Opportunity and Information Technology 6 /	
	The Information Superhighway 6 / Electronic Commerce 9 /	
	The Virtual Corporation 9 / The International Dimension 12 /	
	Changing Roles 14 / Career Planning: Who Is in Charge? 16	
◆	EMERGENCE OF AN INFORMATION AGE PROFESSIONAL	17
	Need for the Marriage of Business and Technology Professionals	
	17 / A Taxonomy for Planning the Future 19	
◆	A NEW MODEL—STEP: Strategies for Technology-Enablement through People	19
	Lack of Attention to People 21 / Lack of Attention to Process 21 /	
	Lack of Attention to Technology 21 / Getting There from Here 22	
◆	REFLECTIONS	23
	General Concepts 23 / STEP Model 25	
Chapter 2:	<b><i>The Information-Enabled Manager</i></b>	<b>26</b>
◆	THE GLOBAL VILLAGE	26
◆	THE LEARNING ORGANIZATION	29
◆	WILL THE NEW INFORMATION-AGE PLEASE STAND UP?	29
	Definition the Information-Enabled Manager (IEMgr) 30	
◆	EDUCATION AND TRAINING OF THE IEMgr	33
	Planning and Implementing Professional Development 33	
◆	REFLECTIONS	38
	General Concepts 38 / STEP Model 38	

<b>Chapter 3:</b>	<b><i>Information-Enabled Management Across the Enterprise</i></b>	<b>39</b>
	◆ <b>MODELS OF INFORMATION MANAGEMENT</b>	39
	Nolan's Six Stages Model 42 / The Strategic Grid 47 / Benefit/Beneficiary Matrix 50	
	◆ <b>ENTERPRISE WIDE RESPONSIBILITY OF THE IEMgmt TEAM</b>	52
	The Support Category 55 / Turnaround Category 56 / The Factory Category 56 / The Strategic Category 56 / Evolution of the IEMgmt Team 57	
	◆ <b>EMERGING PARTNERSHIP: USER MANAGER AND INFORMATION SYSTEMS MANAGER</b>	57
	The Support Category 58 / The Turnaround Category 58 / The Factory Category 58 / The Strategic Category 58	
	◆ <b>CHANGING NATURE OF THE CHIEF INFORMATION OFFICER (CIO)</b>	59
	IEMgmt Shared Responsibility with the CIO 60 / Strategic Direction Setting 60 / Information Technology Exploitation 60 / Business Systems Planning 61 / Systems Development and Maintenance 61	
	◆ <b>LEGACY SYSTEMS, INTEGRATION, AND CHANGE MANAGEMENT</b>	61
	Developing a Partnership and a Leadership Role 62 / Establishing a Collaborative Planning Environment 63 / Systems Integration 63 / Change Management: The Risk-Averse Culture 63	
	◆ <b>REFLECTIONS</b>	64
	General Concepts 64 / STEP Model 65	
<b>Chapter 4:</b>	<b><i>Assessing Strategic Opportunities</i></b>	<b>66</b>
	◆ <b>INFORMATION TECHNOLOGY AS A COMPONENT OF COMPETITIVE STRATEGY</b>	66
	◆ <b>PLANNING IS DYNAMIC NOT STATIC</b>	69
	◆ <b>THINKING OUTSIDE THE BOX</b>	70
	◆ <b>NEED FOR PLANNING</b>	74
	◆ <b>THE PLANNING CHALLENGE</b>	75
	◆ <b>LINKING INFORMATION TECHNOLOGY TO BUSINESS PLANNING</b>	76
	◆ <b>THREE LEVELS OF PLANNING</b>	78
	◆ <b>INFORMATION SYSTEMS PLANNING METHODS</b>	80
	Stand alone Planning 80 / Reactive Planning 80 / Linked Planning 81 / Integrated Planning 81 / Critical Success Factors 82	
	◆ <b>ENTERPRISE DATA MODELING</b>	84
	◆ <b>MANAGING THE INFORMATION SYSTEMS PORTFOLIO</b>	85
	◆ <b>THE BUSINESS SYSTEMS PLANNING METHODOLOGY</b>	85
	◆ <b>INTEGRATED STRATEGIC INFORMATION SYSTEMS PLANNING</b>	91
	Step 1: Environmental Analysis 91 / Step 2: Business Planning 93 / Step 3: Business Unit and Departmental Planning 93 / Step 4:	

Development of the Strategic Information Systems Plan	93 /
Step 5: Data Planning	93

◆ CHANGING WINDOWS OF OPPORTUNITY

◆ REFLECTIONS

General Concepts	94 / STEP Model	95
------------------	-----------------	----

Chapter 5: **Organizational Deployment of the Information Function**

◆ TRENDS IN INFORMATION SYSTEMS ORGANIZATION

The Initiation Stage	98 / The Contagion Stage	98 / The Control Stage	98 / Integration and Data Administration Stages	99 /
The Maturity Stage	99			

◆ TRENDS IN DEPLOYING THE INFORMATION FUNCTION

Centralized to Decentralized	101 / A Hybrid Structure	103 /
Which Structure Is Best?	103 / Function to Process	104 /
Cross-Functional and Self-Managed Teams	106 / Mainframe to Client/Server: The Current Situation	106

◆ Pervasiveness and Decentralization

IEMgr and Power User Relationships	109 / Work Group Computing	109 /
------------------------------------	----------------------------	-------

◆ ORGANIZATIONAL STRUCTURES: SOME BASIC CHOICES

Functional Structure	110 / Project Structure	110 / Matrix Structure	112 / Task Force and Self-Directed Work Team Structures	114
----------------------	-------------------------	------------------------	---	-----

◆ EVOLUTION TO A SUPPORT ORGANIZATION

Internal Considerations	114 / External Considerations	115
-------------------------	-------------------------------	-----

◆ STEERING COMMITTEES

◆ REPORTING TO THE CEO

◆ OUTSOURCING: AN INTRODUCTION

Operations	118 / Network Support	119 / Hot Line	119 /
Applications Development	119		

◆ REFLECTIONS

General Concepts	119
------------------	-----

Chapter 6: **Acquiring and Managing Computer Resources**

◆ GROWING IMPORTANCE OF USER/VENDOR RELATIONSHIPS

◆ OUTSOURCING ISSUES: PART I REVISITED

◆ SELECTIVE OUTSOURCING: A FRAMEWORK

◆ OUTSOURCING PROCESS

◆ IMPLEMENTING THE COMPUTER RESOURCE MANAGEMENT MODEL

◆ COLLABORATION STRATEGIES

◆ DEVELOPING THE REQUEST FOR PROPOSAL (RFP)

◆ NEGOTIATING THE CONTRACT	134
◆ CONCLUDING COMMENTS	134
◆ REFLECTIONS	141
General Concepts	141 / SIS Case Study 141

## PART II: ◆ Redesigning Business Processes 147

Chapter 7:	<b><i>Emerging Process View of Organizations</i></b>	149
◆ WHAT IS A BUSINESS PROCESS?		149
Definitions: Bounding the Process	150 / Components: Personnel, Technology, Process	152
◆ BUSINESS PROCESS CATEGORIES		154
◆ ROLE PERSPECTIVES		156
External and Internal Views	156 / Process Owners and Scope of Authority	157
◆ THE QUALITY IMPERATIVE		157
Lessons Learned	158 / "Progress" and the Enhancement of the Life and Work	160
What Is Meant by Quality?	161 / What Is Meant by "Value-Added" and Can it Be Measured?	161
Strategy and Vision: Are They Different?	161 / Productivity: What Is It?	162
Organizational Integrity	162	
◆ QUALITY FUNCTION DEPLOYMENT (QFD)		163
Stage 1: Organizational Integrity	164 / Stages 2, 3, & 4: Paradigm Shift from Function to Process	165
Stages 5, 6, & 7: Customer Requirements, Competition, and Corporate Issues	166 / Stage 8: General Design: Requirements and Technical Analysis	168
Stages 9, 10, 11, & 12: Detailed Design and Implementation	172	
◆ APPLICATION OF THE QFD MODEL		173
Business Example	173 / Higher Education Example	174
◆ REFLECTIONS		176
General Concepts	176 / STEP Model	177
ISI Case Study	177	
Chapter 8:	<b><i>Business Process Redesign</i></b>	179
◆ DOWNSIZING AND RIGHTSIZING: REPOSITIONING WORKERS		179
◆ BUSINESS PROCESS REDESIGN HIERARCHY		180
Enterprise Level—Business Reengineering	180 / Process Level—Process Quality Management	182
Activity Level—Continuous Quality Improvement	182	

◆ **BUSINESS REENGINEERING METHODOLOGIES**

Identify Process 184 / Plan the Reengineering Project 185 /  
Implement the New Process 186

◆ **PROCESS QUALITY MANAGEMENT**

Case Study—CYNel & Pough Church Equipment Manufacturing 188 /  
The Role of IEMgmt in Process Quality Management 188

◆ **CONTINUOUS QUALITY IMPROVEMENT**

Identify Quality Improvement Areas 191 / Perform Gap  
Analysis 193 / Prioritize Quality Gaps 193 / Manage the Activity  
Improvement Project and Monitor Performance 195 / The Role of  
IEMgmt Continuous Quality Improvement 195

◆ **PROJECT MANAGEMENT**

Introduction 195 / Job Functions and Tasks for Project  
Management 195 / Definition of a Project 197 / Project  
Parameters (Cost, Time, and Resources) 198 / Project  
Management Life Cycle 199 / IEMgmt's Role in Managing  
Projects 201

◆ **REFLECTIONS**

General Concepts 203 / STEP Model 204 / ISI Case Study 205

Chapter 9: ***Human Resource Development***

◆ **UNDERSTANDING INFORMATION-ENABLED PROFESSIONAL DEVELOPMENT**

Describing Tasks, People, and Skill Requirements 208 /  
Building the Information-Enabled Professions Database 209 /  
Staff Skills Profile Database 209 / Bloom's Taxonomy 210 /  
Self-assessments 212 / Career Interests Profile 212 / Learning  
Styles Profile 212 / Job Analysis 219

◆ **CAREER DEVELOPMENT PLANNING**

Organizational Culture and Commitment 223 / Individual  
Responsibility 224 / Manager's Responsibility 224

◆ **CAREER DEVELOPMENT PLANS**

Components of a Career Development Plan 225 / The Career  
Development Planning Process 226

◆ **ENTERPRISE WIDE CONSIDERATIONS**

Staff Planning 230 / Planning the Corporate Training  
Program 230 / Role of the IEMgmt Team 230

◆ **REFLECTIONS**

General Concepts 231 / ISI Case Study 232

Chapter 10:	<b><i>The Service Role of Information Technology</i></b>	233
◆	THE TRIPLE ROLE	233
	Reactive Role 234 / Proactive Role 234 / Collaborative Role 235	
◆	CHANGING FUNCTIONS OF INFORMATION SYSTEMS	235
	Systems and Programming 236 / Operations 236 / Technical and Network Services 237 / Corporate Database Access 237 / Training and Education 238 / Help Desks 238 / Technology Gatekeepers 238 / Standards 239	
◆	ISLANDS OF TECHNOLOGY	239
	Office Automation 239 / Computer-Integrated Manufacturing 240 / Desktop Publishing 241 / Imaging and Document Management 241 / Multimedia 241 / Integration Options 242	
◆	ORGANIZING FOR CONTROL OF INFORMATION	243
	Command and Control Structures 243 / Non-hierarchical Structures 243	
◆	MANAGING ORGANIZATIONAL CHANGE	244
◆	REFLECTIONS	245
	General Concepts 245 / ISI Case Study 245	
	<b>PART III: ◆ Enabling Business Functions</b>	247
Chapter 11:	<b><i>Linking Information Technology to Business Functions</i></b>	249
◆	DECISION-MAKING	249
	Decision and Executive Support Systems 249 / Decision-Making Process 250	
◆	BUSINESS SIMULATION FOR BUSINESS FUNCTIONS	255
	Expectations 255 / Simulation Model Design: A Manager's Perspective 256 / The Simulation Process 258 / Artificial Intelligence and Expert Systems 261 / The Brain, Neural Nets, and Fuzzy Logic 263	
◆	BUSINESS APPLICATIONS AND INFORMATION TECHNOLOGY	265
	Corporate Planning 265 / Marketing 266 / Manufacturing, Production Scheduling, Inventory 268 / Accounting and Finance 269 / Human Resources 270	
◆	REFLECTIONS	272
	General Concepts 272 / STEP Model 273 / Ethics 274 / ISI Case Study 274	

Chapter 12:	<b><i>Systems Development Methodology</i></b>	276
◆	TRADITIONAL PERSPECTIVE	277
	Efficiency 278 / Communications 279 / Control 279 / Documentation 280 / Role Definition 280 / Consistency 280	
◆	SYSTEMS DEVELOPMENT CONSIDERATIONS FOR THE IEMgr	281
	Enterprise Wide Strategies for Applications Development 285 / From Enterprise to Process to Function Levels 287 / Application Partnerships 289	
◆	TAXONOMY FOR DEVELOPMENT	289
	Maintenance Projects 289 / Systems Upgrade Projects 290 / New Applications Development 291	
◆	INCORPORATING A PROJECT MANAGEMENT METHODOLOGY	293
	Sizing the Project 294 / Establishing Project Scope and Detailed Project Planning 294 / Monitoring and Controlling Project Work 295	
◆	SYSTEMS DEVELOPMENT	295
	A Strategic Approach 295 / Design and Development Strategies 296 / Deployment Strategies 298 / Post Deployment Audits 299	
◆	DATA MANAGEMENT	299
	The Corporate Data Model: Access, Security 299 / Distributed Data 300 / Data Architecture Alternatives 302 / Relational Data Structures 302 / Entity Relationship Model 303 / Emergence of Object Technology 304	
◆	REFLECTIONS	305
	General Concepts 305 / STEP Model 306 / Ethics 307 / IIE Case Study 308	
Chapter 13:	<b><i>Information Technology at the End User Level</i></b>	309
◆	TYPES OF END USERS	310
	Type III End Users 310 / Nonprogramming End Users 312 / Command-Level End Users 312 / Programming-Level End Users 312 / Functional-Support End Users 313 / End User Computing Support Personnel 313 / Data Processing Programmers 313	
◆	IMPORTANCE OF END USER COMPUTING	314
◆	MANAGEMENT CONCERNS	
	Service Managers 314 / IS Management 315 / User Management 315 / Design Team 316	
◆	GENERALIZATION AND INFORMATION TECHNOLOGY	316
◆	WORK GROUP COMPUTING	317
	Intradepartmental and Interdepartmental Relationships 318	

♦ ELECTRONIC COMMERCE	319
♦ CONTROL VERSUS AUTONOMY	321
An Anthology of End-User Computer Support Strategies	321
♦ ORGANIZING FOR END-USER SUPPORT	324
The Corporate Model Unit	324
The Decision Support Systems Unit	325
The Information Center Unit	325
♦ REFLECTIONS	326
General Concepts	326
STEP Model	326
Ethics	327
Integrating Case Study	328
Chapter 14: <i>The Support Role of Information Technology</i>	329
♦ DEVELOPING A SUPPORT SERVICE LEVEL AGREEMENT	330
♦ ROLES AND RESPONSIBILITIES	331
Setting Corporate Policy and Standards	330
Data Administration	330
Communications	331
Technology Research	332
Training and Education	332
♦ END-USER MANAGEMENT RESPONSIBILITIES	332
Applications Management: Implementation Strategies	332
♦ IMPLEMENTATION POLICIES AND PROCEDURES	335
The Life Cycle of End-User Systems Development	334
Hard and Soft Controls	335
Certifying User-Developed Systems	339
♦ REFLECTIONS	341
General Concepts	341
Ethics	342
Epilog	345
♦ POSITIONING THE ENTERPRISE FOR THE FUTURE WITH PEOPLE AND TECHNOLOGY	345
APPENDICES ♦
