Contents

Preface

xiii

PART A C/PASCAL

1

1 INTRODUCTION

3

1.1	Introduction	3
1.2	Hardware, software and firmware	3
1.3	Basic computer architecture	4
1.4	Compiling, linking and producing an executable program	5
1.5	C compilation	6
1.6	Pascal compilation	7
1.7	Introduction to C	8
1.8	Introduction to Pascal	12
1.9	Exercises	16
	Worksheet 1	18

2 INPUT/OUTPUT

21

2.1	Introduction	21
2.2	Pascal input/output	21
2.3	C input/output	23
2.4	Examples	26
	Worksheet 2	37
	Worksheet 3	39

3 SELECTION STATEMENTS

41

3.1	if...else statements	41
3.2	switch statement	49
3.3	Exercises	55
	Worksheet 4	56
	Worksheet 5	57

4 REPETITIVE STATEMENTS

59

4.1	Introduction	59
4.2	for	59
4.3	Examples	60

iv Contents

4.4	Exercises	64
	Worksheet 6	67
4.5	while()	68
4.6	repeat..until() and do..while()	68
4.7	Examples	69
4.8	Exercises	72
	Worksheet 7	79
5	FUNCTIONS	81
5.1	Introduction	81
5.2	Arguments and parameters	81
5.3	C functions	82
5.4	Pascal functions	88
5.5	Examples	91
5.6	Exercises	101
	Worksheet 8	103
6	PARAMETER PASSING	105
6.1	Introduction	105
6.2	Pascal parameter passing	106
6.3	C parameter passing	107
6.4	Examples	111
6.5	Exercises	116
	Worksheet 9	118
7	ARRAYS	121
7.1	Introduction	121
7.2	C arrays	121
7.3	Pascal arrays	124
7.4	Examples	126
7.5	Exercises	135
	Worksheet 10	139
8	STRINGS	141
8.1	Introduction	141
8.2	Pascal strings	141
8.3	C character arrays	143
8.4	Examples	147
8.5	Exercises	154
	Worksheet 11	156
9	FILE I/O	159
9.1	Introduction	159
9.2	Pascal file I/O	161
		162

9.4	Examples	166
9.5	Reading and writing one character at a time	171
9.6	Exercises	172
	Worksheet 12	174
10	STRUCTURES AND RECORDS	175
10.1	Introduction	175
10.2	Records in Pascal	178
10.3	Structures in C	181
10.4	Array of structures	186
10.5	Exercises	188
	Worksheet 13	

PART B C++ **189**

11	INTRODUCTION TO C++	191
11.1	Introduction	191
11.2	Enhancements to C++	192
11.3	I/O stream	192
11.4	Comments	193
11.5	Function overloading	193
11.6	Classes	195
11.7	Complex numbers	199
11.8	Exercises	200
12	MORE C++	205
12.1	Constructors and destructors	205
12.2	Function templates	206
12.3	Class templates	207
12.4	I/O streams	208
12.5	Exercises	216

PART C Assembly Language **217**

13	INTRODUCTION	219
13.1	Introduction	219
13.2	Basic computer architecture	219
13.3	Bits and bytes	220
13.4	Binary arithmetic	222
13.5	Numbers and representations	222
13.6	Memory addressing size	226
13.7	Exercises	226

14 COMPUTER ARCHITECTURE	229
14.1 History of the PC	229
14.2 Intel microprocessors	230
14.3 80386/ 80486 microprocessor	231
14.4 Registers	233
14.5 Memory segmentation	236
14.6 View inside the processor	238
14.7 Machine code and assembly language	240
14.8 Exercises	240
15 8086/88 INSTRUCTIONS	243
15.1 Introduction	243
15.2 Characters and numbers	243
15.3 Comments	243
15.4 Move (MOV)	244
15.5 Addressing memory	244
15.6 Addition and subtraction (ADD and SUB)	246
15.7 Compare (CMP)	246
15.8 Unary operations (INC, DEC and NEG)	246
15.9 Boolean bitwise instructions (AND, OR, XOR and NOT)	247
15.10 Shift/rotate instructions (SHL, SAL, SHR, SAR, ROL, ROR, RCL and RCR)	247
15.11 Unconditional jump (JMP)	249
15.12 Conditional jumps	249
15.13 Subroutine calls (CALL and RET)	250
15.14 Push and pop	250
15.15 Moving around data in memory	251
15.16 Assembler directives	252
15.17 Data definition	253
15.18 Equates (EQU)	254
15.19 Exercises Part 1	255
15.20 Exercises Part 2	259
16 8086 INTERFACING AND TIMING	261
16.1 Introduction	261
16.2 Interfacing with memory	262
16.3 Memory mapped I/O	262
16.4 Isolated I/O	263
16.5 Digital I/O using the 8255	268
16.6 Digital I/O programs	271
16.7 Timing	273
16.8 Exercises	276
17 8086 INTERRUPTS	279
17.1 Interrupts (INT)	279
17.2 Interrupt 21h: DOS services	279
17.3 Interrupt 10h: BIOS video mode	281

17.4	Interrupt 11h: BIOS equipment check	283
17.5	Interrupt 13h: BIOS disk access	284
17.6	Interrupt 14h: BIOS serial communications	284
17.7	Interrupt 16h: BIOS keyboard	285
17.8	Interrupt 17h: BIOS printer	286
17.9	Interrupt 19h: BIOS reboot	286
17.10	Interrupt 1Ah: BIOS system time	286
17.11	C and Pascal interrupts	287
17.12	Exercises	288

PART D Visual Basic 289

18 INTRODUCTION 291

18.1	Introduction	291
18.2	Event-driven programming	291
18.3	Visual Basic files	293
18.4	Other terms	293
18.5	Main screen	293
18.6	Properties window	300
18.7	Controls and Event	302
18.8	Exercises	303

19 VISUAL BASIC LANGUAGE 305

19.1	Introduction	305
19.2	Programming language	305
19.3	Entering a program	305
19.4	Language reference	307
19.5	Exercises	321

20 FORMS 323

20.1	Introduction	323
20.2	Setting properties	323
20.3	Forms and code	324
20.4	Temperature conversion program	331
20.5	Quadratic roots program	334
20.6	Resistance calculation with slider controls program	336
20.7	Exercises	342

21 MENUS AND DIALOG BOXES 345

21.1	Introduction	345
21.2	Menu editor	345
21.3	Common dialog control	352
21.4	Running an application program	358
21.5	Exercises	360

22 EVENTS

- 22.1 Introduction
- 22.2 Program events
- 22.3 Exercises

385
386
387
388

23 GRAPHICS

- 23.1 Introduction
- 23.2 Loading graphics files
- 23.3 Colours
- 23.4 Drawing
- 23.5 Exercises

379
380
381
382
383
384

PART E HTML/Java

383

24 HTML (INTRODUCTION)

- 24.1 Introduction
- 24.2 Links
- 24.3 Lists
- 24.4 Colours
- 24.5 Background images
- 24.6 Displaying images
- 24.7 Horizontal lines
- 24.8 Exercises

385
385
387
388
390
392
394
397
398

25 FURTHER HTML

- 25.1 Introduction
- 25.2 Anchors
- 25.3 Tables
- 25.4 CGI scripts
- 25.5 Forms
- 25.6 Multimedia
- 25.7 Exercises

401
401
401
403
405
408
412

26 JAVASCRIPT

- 26.1 Introduction
- 26.2 JavaScript language
- 26.3 JavaScript values, variables and literals
- 26.4 Expressions and operators
- 26.5 JavaScript operators
- 26.6 JavaScript statements
- 26.7 Conditional statements
- 26.8 Loops

415
415
417
418
420
422
423
423

26.9	Comments	428
26.10	Functions	428
26.11	Objects and properties	429
26.12	Document objects	429
26.13	Event handling	430
26.14	Window objects	432
26.15	Object manipulation statements and operators	434
26.16	Exercises	436
27	JAVA (INTRODUCTION)	437
27.1	Introduction	437
27.2	Creating an applet	440
27.3	Applet basics	441
27.4	Stand-alone programs	445
27.5	Java reserved words	446
27.6	Applet variables	446
27.7	Java operators	447
27.8	Mathematical operations	447
27.9	Loops	449
27.10	Conditional statements	450
27.11	Exercises	452
28	JAVA (EXTENDED FUNCTIONS)	453
28.1	Introduction	453
28.2	Initialization and exit functions	453
28.3	Mouse events	455
28.4	Mouse selection	456
28.5	Keyboard input	457
28.6	Graphics images	459
28.7	Graphics	460
28.8	Sound	464
28.9	Dialog boxes	465
28.10	Fonts	469
28.11	Exercises	470

PART F DOS 473

29	INTRODUCTION	475
29.1	Introduction	475
29.2	Introduction to DOS	476
29.3	Disks	479
29.4	Formatting floppy disks (<i>FORMAT</i>)	479
29.5	File system structure	481
29.6	DOS Filenames	482
29.7	File types	483

- 29.8 Listing files (*DIR*)
Worksheet 14

30 DOS FILE SYSTEM/EDITOR

- 30.1 Changing directory (*CD* or *CHDIR*)
30.2 Making a directory (*MKDIR* or *MD*)
30.3 Viewing a file (*TYPE*)
30.4 Wild-cards (* or ?)
30.5 Creating a text file
30.6 Deleting Files (*DEL* or *ERASE*)
30.7 Copying files (*COPY*)
Worksheet 15

PART G Windows 3.x

31 INTRODUCTION

- 31.1 Introduction
31.2 Running Windows
31.3 Windows desktop
31.4 Window items
31.5 Mouse controls
31.6 Program Manager menus
31.7 Moving and resizing a window
31.8 Closing a window with the Control menu
31.9 Exercises

32 FILE MANAGEMENT

- 32.1 Introduction
32.2 File manager
32.3 Exercises

PART H Windows 95/NT

33 WINDOWS 95/NT

- 33.1 Introduction
33.2 Servers, workstations and clients
33.3 Workgroups and domains
33.4 Windows NT user and group accounts
33.5 File systems
33.6 Running Windows 95 and NT
33.7 Basic Windows NT/95
33.8 Mouse controls

33.10	Moving and resizing a window	533
33.11	Closing a window with the Control menu	534
33.12	Start	534
33.13	My Computer	535
33.14	Running DOS	535
33.15	Windows 95/NT network drives	537
33.16	Exercises	537

34 EXTRA WINDOWS 541

34.1	Saving important set-up files	541
34.2	Running a program when Windows starts up	541
34.3	Capturing Windows screen	543
34.4	Swapping between applications	543
34.5	Terminating programs which have crashed	544
34.6	Windows file extensions	545
34.7	Exercises	545

PART I UNIX 547

35 INTRODUCTION TO UNIX 549

35.1	Introduction	549
35.2	Login into the system	550
35.3	Directory structure	550
35.4	On-line manual	552
35.5	Changing directory	552
35.6	Listing directories	553
35.7	File attributes	554
35.8	Special characters (*, ? and [])	556
35.9	Listing contents of a file	557
35.10	Making and removing directories	557
35.11	Copying, renaming and removing	558
35.12	Standard input and output	559
35.13	Compiling C programs	561
35.14	Displaying the time and date	561
35.15	Where to find things	562
35.16	Exercises	563
35.17	Summary	566

36 UNIX COMMANDS 567

36.1	Process control	567
36.2	Compilers	570
36.3	File manipulation commands	572
36.4	Other commands	583
36.5	Exercises	591

37 EDITING AND TEXT PROCESSING	593
37.1 Introduction	593
37.2 Visual editor	593
37.3 Example of text editing	597
37.4 sed editor	599
37.5 grep	600
37.6 sort	601
37.7 Exercises	603
38 CSH (C SHELL)	605
38.1 Introduction	605
38.2 Entering the C shell	605
38.3 Leaving the C shell	606
38.4 History	606
38.5 Reexecuting events	607
38.6 Alias	609
38.7 Variables	609
38.8 Special forms (\$#, \$? and ~)	612
38.9 Shell variables	612
38.10 Shell scripts	615
38.11 Control structures	615
38.12 Automatically executed C shell scripts (.login .cshrc)	618
38.13 Exercises	619
A JAVA CLASSES	621
B ANSI-C FUNCTIONS	627
C TURBO PASCAL REFERENCE	637
D ASSEMBLY LANGUAGE REFERENCE	649
D.1 Assembly language mnemonics	649
D.2 Assembler directives	654
D.3 C and Pascal interrupts	656
E ASCII CHARACTER SET	659
INDEX	663
